

CHILD BE THE ARCHITECT OF A BETTER FUTURE

*Architect do you hear me calling
I do not ask for much, better environment, planning and landscape*

*Architect help me save the Planet
I seek, only kindness, sweet water, and clean air fit to breathe*

*Architect help me transform the space
Use your knowledge with care, make my environment a friendly place*

*Architect I want a safe home
Use technology with discretion, improve my quality of life*

*Architect help me save our memory
Preserve our historical link, respect the good things of the past*

*Architect let your plans cherish our democracy
Allow me to participate – let me play, turn my city into a magnet of hope*

*Architect lets respect each other and diversity
Come forward and use your skill, I want to call my neighbours my friends*

*Architect protect cultural differences
Let your work promote human values, be equitable and understanding in
your designs*

*Architect I am the future, let me be your friend
Let me walk tall in your new environs
Sustain my dreams, be there for me
Globalisation yes, especially for peace
Be the architect of this future*
