All the world's cities are growing - and the quality of urban design in new areas is generally depressing. The problem often results from the lack of adequate attention to the design of public space. The outdoor landscape is our access to clean air, sunshine, and provides us with gathering places in which to encounter other people. It contributes vastly to our quality of life.

The Kamra tal-Periti (KTP) and the Anhalt University of Germany are organizing a one day seminar on landscape architecture in the Design/Build process. During the past three years, Anhalt University has been conducting studio work in Malta to introduce landscape architecture proposals and has now invited leading professionals in landscape architecture to add the professional perspective to the academic one.

Hon. Minister, Ninu Zammit and H.E. German Ambassador Karl Andreas Freiherr von Stenglin will open the seminar on Friday, March 30 at 10:00 at the Chamber of Commerce in Valletta. Prof. Arno Schmid, the President of the German Chamber of Architects will deliver a keynote speech about the potential role of landscape architecture in the design/build process of the restoration and conservation of the Maltese landscape. Prof. Arno Schmid is former President of the International Federation of Landscape Architecture (IFLA) after having served as President of the German Federation of Landscape Architecture (BDLA).

From left: Prof. Erich Buhmann, Anhalt University; Prof Denis DeLucca, University of Malta and Minister Zammit, during a similar seminar held in 2006

In addition, three landscape architects from Berlin and Milan will present current projects in Europe. The third session in the afternoon will be a panel discussion with all speakers, moderated by Robert Schäfer, the editor-in-chief of the two European journals for landscape architecture: *TOPOS* and *Garten + Landschaft*. The current President of the Kamra tal-Periti, David Felice, will close the event.

The seminar is open to the public and is free of charge. For more information, the KTP may be contacted via email on info@ktpmalta.com.

The Kamra tal-Periti is affiliated to the International Union of Architects (UIA), the Architects' Council of Europe (ACE), the Commonwealth Architects' Association (CAA), Union of Mediterranean Architects (UMAR) and European Forum for Architectural Policies (EFAP).
