**Time for Architecture** is back, with the third edition being held this October. T4A3 will run from Monday 1<sup>st</sup> October, which marks World Architecture Day, until Saturday 20<sup>th</sup> October, with a number of architectural events that will attract both architects and architectural enthusiasts alike.

This year's events will kick off with the inauguration of an exhibition of Contemporary Maltese architecture by some of the leading architects and architectural firms on the Maltese Islands. This will be held on Monday 1<sup>st</sup> October at 7.30pm, on the first floor of the Ministry of Tourism. The exhibition will run for a period of three weeks until Friday 19<sup>th</sup> October.

Each weekend will host a number of other architectural events including, among others, a guided tour to the Prehistoric Temples of Tarxien, Ta' Hagra and Ta' Skorba in collaboration with Heritage Malta on the 7<sup>th</sup> October and the annual architecture students workshop organised by SACES between the 19<sup>th</sup> and 21<sup>st</sup> October. In line with the KTP's belief that education is an important element in encouraging society to be aware of the need of quality in the built environment, a children's workshop will be organised on the 6<sup>th</sup> of October, under the theme "Zero Emission".

T4A will come to a close with the fourth in this year's series of Architecture Nights which will feature world-renowned Austrian architect Peter Lorenz of **peterlorenzateliers**, to be held on Saturday 20<sup>th</sup> October at Aula Magna. Present for the last weekend will also be the Presidents of the various Architectural Chambers and Associations for Western Europe, as the UIA (*Union Internationale des Architectes*) Region 1 Meeting will be hosted in Malta this year.

These events are open to the general public. More details may be obtained on [www.ktpmalta.com](http://www.ktpmalta.com), or via email on [events@ktpmalta.com](mailto:events@ktpmalta.com).
